

Working with our trusted industry partners, we provide top-notch service to local visitors so they can make the most of their stay...

VisitorFun ExploreBoard campaigns are sold by destination through DOOH (digital out-of-home) network groupings.

Each network usually contains a variety of screen sizes and includes both touchless and touchscreens depending on each host partner's preferences.

Aptly named ExploreBoards, our design allows users to explore and discover what is "Around Here", "More Like This" and broad category filters for Play, Shop, Eat, etc. to plan their daily vacation activities.

Content updates are synchronized with network locations each morning.* Contact your nearest CTM office for current network locations and the benefits of being an ExploreBoard host partner.

Our services support the concierge and other hotel, attraction and transportation hub staff to quickly and easily share fun, exciting activities and experiences with their guests.

CTM's Visitor Information Specialists take great pride in their work. Our uniformed associates use sophisticated routing software, customized and clearly marked service vehicles, plus activity reporting to optimize service and ensure each location receives the attention it deserves.

**Content updates require a stable Internet connection and reliable power source for daily synchronization and activity reporting.*
