Washington is an International Center, the home of over 180 foreign embassies and a plethora of international organizations such as the World Bank, the International Monetary Fund, and the Organization of American States. It is the site of the home of most NATIONAL ORGANIZATIONS, including the worldrenowned National Geographic Society. Washington is a SEAT OF CULTURE. Seven major universities are within the district itself, with many more in the metropolitan area along with the top research institutes of the nation. The Library of Congress is considered the world's most complete library. The Smithsonian's many sections include the Air and Space Museum, the American History and the Natural History. Fine arts performances range from the casualness of the lawn of the Capitol Building to the elegance of the Kennedy Center. But, Washington is not only a city for politicians, intellectuals, and foreign diplomats. It is a city for lovers. The ROMANTIC side of the city on the Potomac cannot be ignored. A nighttime view of The Mall with its monuments stretching from the Lincoln Memorial to the Capitol Building will make you want to return with someone special. The cherry blossoms, lining the tidal basin in Spring will enchant you. Let ZOHERY TOURS show you the side of Washington YOU want to see.

Lost in Washington; we decided to take the wonderful Zohery Tour. It was so wonderful observing all the things that it was impossible for a couple with three kids. As I rest comfortable.. ., my son was amazed to hear of all the history of Washington in one day. My son said, "Mom, this man knows more than my history teacher" and I bet he did
