

For over 30 years the Town Tinker Tube Rental has provided whitewater equipment for adrenaline seekers to come and experience the intensity of the rapids on the Esopus Creek.

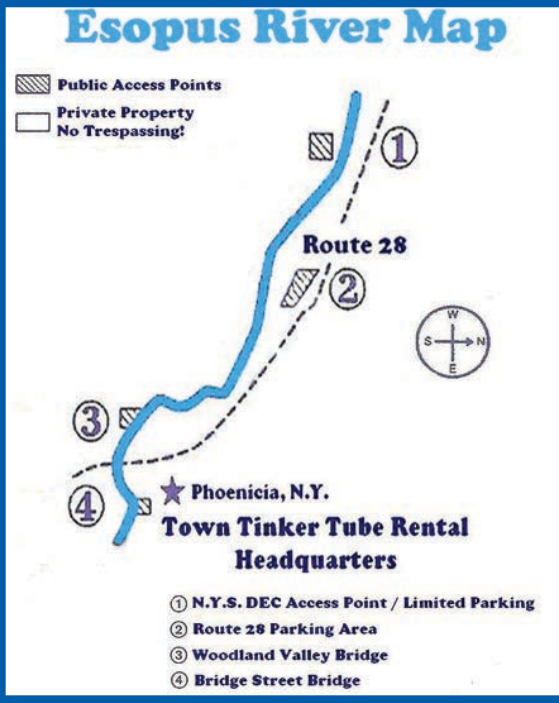

The Course begins upstream from the Town Tinker headquarters, in Phoenicia NY and contains the best and most extreme whitewater the Esopus has to offer. Depending on the water height an average tubing trip takes between 1 1/2 to 2 hours. Transportation to the entry points is provided by the Town Tinker Tube Taxi.

The Esopus Creek is "NOT" a lazy river! It's class II whitewater which means 1 to 3 foot waves and rapids. It is not a man made amusement park ride; there are real rocks and trees that can get in your way. Tubers must be physically capable of maneuvering around obstacles and have the ability to recover when tossed out of the tube.

The Town Tinker Staff is expertly trained to supply you with all of the equipment and gear needed. All tubers will receive safety instructions on how to properly use the equipment and what to look out for on the creek. There are no guides or attendants on the Esopus so tubing is at your own risk.

All Tubers must be over 12 year's old and good swimmers. Life jackets are mandatory and helmets are strongly suggested. Helmets are required for ages 12-14.

Tubing at with the Town Tinker Tube Rental is fun, exciting, and a Summer Adventure you're sure to remember.

# Experience Whitewater Kayaking On the Esopus

The fully loaded Kayaking Package Offers...

Inflatable Kayak and Paddle, Life vest, Helmet, Wetsuit, & One-time Kayak Taxi Transportation

## General Information and Safety Tips

1. Children must be 12 years old and good swimmers.
2. Bathing suits or shorts and a shirt to protect against sunburn are appropriate attire.
3. Everyone must wear old sneakers, Teva's, or water shoes to protect their feet.
4. Helmets are recommended for everyone and required for those 14 years old and under.
5. Wetsuits are recommended due to the cold water temperature, usually under 60°F.
6. Eyeglass retainers are a must for those wearing glasses.
7. Do not take valuables (rings, jewelry, etc.) or car keys with you in the creek. Key and article check available.
8. Tube with a friend or in a group so as to have help in case of an emergency.
9. Steer away from fallen trees as the swift current may trap you in the branches. It is essential to navigate, which is accomplished by paddling with your hands and kicking with your feet. Stay in the middle of the river or the deepest running water where you'll have fewer obstacles to deal with.
10. If you fall out of a tube, don't panic! Grab the tube! It's a floatation device and will keep your head above water. Once you have the tube, place it in front of you, down-river, and use it as a cushion between you and anything you might run into. Let your legs trail behind you and swim behind the tube to avoid hitting your legs on submerged rocks. If you are unable to grab hold of the tube, position yourself so that you are going downstream feet first, not head first, and maneuver yourself over to the bank or other place of safety.
11. It is dangerous to stand up in water that is more than knee-deep. Feet can be trapped, and swift currents can easily knock you over.
12. In the event of thunderstorms and lightning, exit the water immediately.

**Do Not Trespass, Litter, or Take Food and Drinks in the Creek!**

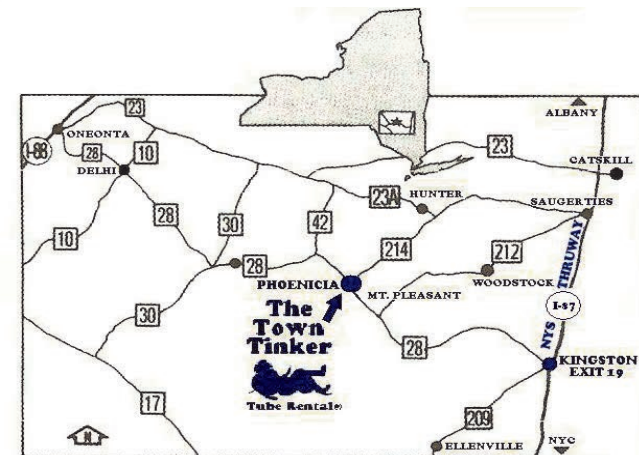

## Esopus Creek

### Water Release Information

The Esopus Creek is part of the New York City watershed, and is used to transfer water to the Ashokan Reservoir by way of the Shandaken Portal. Four times a year, depending on watershed conditions, the portal is opened wider, providing higher, faster water for even more exciting tubing!

For this season's water release dates, check our website or call us after May 1<sup>st</sup>.

## How to Find Town Tinker Tube Rental

NYS Thruway (I-87) to Exit 19 (Kingston)

Follow Route 28 West for 25 Miles

Exit Route 28 on Right at first Phoenicia sign

Go down the ramp, across the Bridge, Town Tinker Headquarters is on the Left and our parking lot is on the Right.
