

MAPS can provide you with a practical “hands on” opportunity to look at history from an approach not found in books or films.

View a Western Union telegraph sent to a World War II family that begins the words “*The Secretary of War desires me to express his deep regret that your son...*”; to read a letter sent home by an American POW and hear his comments about his time in a German prison camp; go inside an aircraft similar to those taking American and British paratroops into Normandy on D-Day; see a piece of the U.S.S. Arizona that rests in Pearl Harbor; touch a World War II vintage bomber—these are things that a book cannot offer. These are things that can “Make History Take Flight”.

The Military Aviation Preservation Society (MAPS) was founded in 1990 at the Akron-Canton Regional airport. MAPS is organized as a non-profit organization whose mission is educating people about the history of aviation and its impact upon society. It accomplishes this mission by acquiring, restoring, preserving, studying and exhibiting the impact of aviation on the culture of man.

RECEPTIONS

For those interested in an area to host medium to large receptions, the MAPS hangar is an ideal location. A unique venue for a special day like no other that you will find in the area.

PARTIES

What better place to hold a birthday party, retirement party or other celebration than among the aircraft that made history!

REUNIONS

Organization, military unit, high school class or other group reunions are also possible at the MAPS facility.

SHOWS

The hangar at MAPS can be configured to accommodate a wide variety of vendor displays for organization fund raiser activities or trade shows. Use the large flag in the hangar as a backdrop for your stage or for a live band.

MEETINGS

A key component for organizational health is the ability to re-focus on what has been successful and plan for the future. This often cannot be accomplished in the confines of an office or board room. MAPS can provide the quiet location away from phones and faxes to reflect and to plan. Our library facility is equipped with "Smart" technology and wi-fi access.

MORE INFORMATION

- Qualified Tour Guides, that are familiar with the aircraft and displays, can add a personal touch that will make your visit memorable.
- Fully handicapped accessible restrooms.
- Wheelchairs available for those with limited mobility.
- Access to a wide variety of restaurants in the area - most within a 10 minute drive! If you wish to eat in the hangar near the aircraft, you can provide your own food, you can contact or we can recommend local caterers that can bring meals to MAPS for you.
- Wi-fi available in the hangar.
