
**EXPERIENCE AVIATION
 UP-CLOSE**

You feel it when you first step into the hangar. You are surrounded by historical aircraft and artifacts. From the earliest days of flying to modern supersonic jets, each aircraft is significant in its contribution to aviation history. This is where you can see and learn about aircraft that helped win wars, push the boundaries of flight and impact the history of this nation. Some of the aircraft on display have been dedicated to Ohio residents that flew them.

MAPS is more than aircraft; it is about history. It is more than just dates and places; it is about people just like you. The display rooms at the MAPS Air Museum highlight their stories, their achievements and their sacrifices. You can view a relic from the U.S.S. Arizona sunk by the Japanese air attack at Pearl Harbor, displays honoring Ohio residents awarded the Congressional Medal of Honor, and memorials to those Ohio residents lost during the War in Vietnam and the War on Terrorism. Tour Guides are available to assist you in enjoying the MAPS experience.

Whether you have an hour or a whole day,
 there's something for you at MAPS.

MAPS
AIR MUSEUM

Come for the aircraft, stay for the history!

BE PART OF THE PASSION...JOIN MAPS TODAY!

JOIN OUR MEMBERS: Most of MAPS Air Museum's income comes from admissions, membership dues and gift shop revenue. People all over the United States belong to MAPS to help keep it running and growing. 100 percent of the money goes to operating and maintaining the museum. Join us today! MAPS is a 501(c)(3) nonprofit organization.

BECOME A VOLUNTEER: MAPS is mostly a volunteer organization. From restoring aircraft to guiding tours to maintaining the facilities to helping with special events, there is something for everyone here at MAPS. No experience with aircraft or museums is needed. Our volunteers like to have fun while keeping their museum running at its best.

See our website (www.mapsairmuseum.org) to match your interests or talk to a member about volunteering.

SPECIAL EVENTS: The museum is also available for private events, shows and weddings. Contact mapsevents@mapsairmuseum.org or the museum office for details.

MAPS EDUCATION PROGRAMS

With education being a central part of our mission statement, we focus our efforts on providing a hands-on educational experience that truly brings history to life. Programs can be tailored to meet the needs of the audience and to address specific events or periods of aviation history. A MAPS "field trip" can be a valuable asset to classroom teachers to promote understanding of concepts and to directly support classroom instruction. The Louise Timken Library at MAPS is available for research projects in both military and aviation history. Contact the museum office to set up a group or school tour.
