135	Mystic Country	🎬	🖼	🪧	✓	📝	🗑

Destination | Landing Page

Destination | Article Page

Destination | Landing Page

- Map will be only "image" appearing here

- Need editable fields for headline copy

- Description will appear here for SEO

- Fun ideas & travel tips is a list of the "articles" pages assigned within that destination

- Banner ads will be assigned by destination

This selector determines profile content that appears below. Profiles will be tagged in Admin panel for these specific labels.

Destination

Filter by destination name: [   ] 🔍 (Note: Please enter atleat 3 characters for proper filter.)

ADD NEW DESTINATION | CITY AND GETAWAY | EXPLORE ORDER

Facebook user profile   Only profile name - ex. ettractions
Twitter user profile   Only profile name - ex. ettractions
Upload Background Image   (Please upload only jpg, gif, png file.)
Local Visitor Map   (Please upload only pdf file.)

We will continue using fields in orange... does zip code drive map locator image on landing page?

Do we need to add fields for headline on landing pages?

Nearby Drop down needs to be updated to feed the "What's Nearby" content box

This can feed the "About the Area" 1000 character max. Any other SEO fields to add/consider?

Destination | Article Pages

- Will no longer be using WordPress… need ability to add "templated" articles to destinations and access photos.

- Feed will show articles available by destination

- This is a current field on the Edit panel "nearby" but will need updating and we will hyperlink to store url for maps.

- Need ability to assign the profile IDs mentioned in article to appear here. (More than 3 may be selected per article)

- Banner ads are assigned by destination
