

museum OF MAKING **music** NAMM

Music.

It's the soundtrack of our lives, and it's also part of a much larger story...the story of how an industry—the music products industry—supplies the world with the instruments, products and gear that we all use to make music.

And it's a story we think you'll enjoy! In our exhibition galleries you'll see outstanding examples of musical instruments and products (many in vintage store settings), you'll hear great tunes in audio and video clips, and you'll have many hands-on opportunities to pick up and play a variety of instruments. And much more.

It's an insider's view of the world of making music—and it's all here at the Museum of Making Music!

The Museum of Making Music is the only museum of its kind, devoting 6,500 square feet of exhibition space to tell the unique story of making, selling and using musical instruments and products from 1900 to today. You'll find us on the first floor of the global headquarters of the National Association of Music Merchants (NAMM).

So don't miss a beat. Come visit us today and discover a world of music and music making. We overlook the Flower Fields and Pacific Ocean here in beautiful Carlsbad, California.

Admission

General	\$10
