The Nexus Lanes

Experience the future with our advanced live fire video targets, the Nexus Lanes! Take your shooting to the next level while making it fun at the same time. Since the gun's invention, people have been making holes in paper targets which is limited and can become boring and mundane over time.

REAL AMMO!

Our technology lets you shoot your actual gun and real ammo at interactive video targets, such as defensive scenarios, shooting galleries, and skill drills! Protect the Earth from asteroids or save humanity from hordes of hungry undead zombies!

REAL

FUN!

Our computers provide instant feedback, scoring, and analysis of each shot, becoming a virtual shooting instructor.

The Shooting Range

With 40 lanes of shooting fun, we are one of the largest ranges in the entire nation! We have both a traditional paper target range as well as our proprietary Nexus Lane video technology. The 40 lanes are subdivided into 8 separate rooms including a VIP party room which allows you to have a completely private experience with your family, friends, group or corporate event, and parties!

Our digital target carriers allow you to precisely set your paper target anywhere along our 75 ft long range to challenge yourself at distance.

Our indoor range is 100% air-conditioned and HEPA filtered to ensure a cool and clean experience no matter how hot, humid, or wet the outside Florida weather is.

Safety is our primary concern on the range. We have friendly and knowledgeable Range Officers in every room ready to provide assistance and maintain a safe environment. All walls & lane dividers are bulletproof. Rent one of our 8 private rooms for just your group alone!
