

underground paranormal experience

Unlike any other paranormal tour anywhere, the Underground Paranormal Experience gives you the understanding and equipment to do your own investigation.

You experience what trained paranormal investigators face.

Don't Watch Ghost Hunters.
Be One.

underground paranormal experience

The Underground, created when Seattle rebuilt on top of itself after the Great Fire of 1889, is renowned for paranormal spirits thought to be the neighborhood's notoriously murdered, unrequited souls.

Hear their stories as you roam the exclusive passageways of the world-famous Underground Tour.

Search for paranormal activity using the same sophisticated investigative equipment employed by trained professional paranormal investigators.

The Underground Paranormal Experience may haunt you for the rest of your life.
