"Mind Blowing Illusions"

★★★★★ Reviewed July 16, 2015

I grew up in Vegas and have seen Lance Burton, David Copperfield, and a whole host of stage magicians, but I have never seen anything like David Minkin. He performs his illusions so close to you that it can't be anything short of witchcraft. Even if you think you've seen magic shows before, I assure you, you've never seen anything like this.

"Most amazing close up magician I have ever seen!!!"

The evening started out with a lovely wine tasting and appetizers, then came the best treat, David's show! I was in the second row and truly could not figure out how he did any of his "magic"!!! He does many original segments in his act and they are mind blowing! I highly recommend you see his show!
