Dying to take a ride on the Dark Side?

Travel back in time & hear about the spirits
of the notorious characters who lived
and died in San Diego.

Notorious wild characters like Gunslingers, Gamblers & Ladies of the Night lived and died in San Diego and it is possible that their spirits live on in the dark recesses of our historic buildings and neighborhoods.

Pioneer Park, located next to Grant School, is perfect for picnics and for school children to play; indeed, it is a lovely place during the day. Ah...but you will hear stories of how the park changes to the darker side when the sun goes down and there is a different feeling in the air.

Journey through Old Town, walking through El Campo Santo Cemetery and ending at the Whaley House - both sites of many reported paranormal occurrences. According to the Travel Channel's *America's Most Haunted*, the Whaley House is the most haunted house in the United States. Although we cannot state positively that the House is really haunted, the voluminous documentation of paranormal occurrences at the site makes a compelling case.

*If there are ghosts at the Whaley House,
who are they and why are they here?*
