Rhododendron Species **Botanical Garden**

"One of the top 5 botanical gardens in the country..."

More than a Rhododendron Garden:

22 acres of woodland gardens featuring over 600 *Rhododendron* species; the finest collection of its kind in the world. Something blooming each month!

Extensive collection of Companion Plants featuring new introductions from China and the Himalaya mountains displayed with major collections of magnolias, Japanese maples, ferns, natives and much more.

Rutherford Conservatory was specially built to house vireya rhododendrons and other tropicals...fragrant and colorful.

Victorian Stumpery showcasing the Hardy Fern Foundation's extensive fern collection.

Himalayan Blue Poppy Meadow the finest public display of blue poppies in North America.

Alpine Rockery Garden a host of miniature plants from the highest mountains in the world.

Pacific Bonsai Museum the preeminent bonsai display in North America is located next door.

Shop at the RSBG Nursery for unusual rhododendrons and companion plants, and at the **Garden Gift Shop** for unique garden-related gifts. *Open Year Round!*
