50TH SUMMER OF LOVE

In 1967, nearly 100,000 free-spirited adventurers congregated in San Francisco to join a cultural revolution that created some of the era's most memorable music, art, fashion and literature. Wearing flowers in their hair, people danced through the streets, promoting peace in a war-ravaged world. Their legacy remains, and five decades later Madame Tussauds pays tribute to the 50th anniversary of the Summer of Love. Jump in our retro VW van and rub shoulders with iconic faces of this period such as Jerry Garcia, Janis Joplin and Carlos Santana.
