SEAPLANE FLIGHTS & TOURS

WHISTLER 2018

★★★★★ "A highlight
of our trip to Canada."

"...I was apprehensive having never been on a small plane before, let alone a float plane, but felt completely at ease during the flight. The scenery was breathtaking, especially lake Garibaldi. It was amazing to get so close to the glaciers ... My kids (4, 6 and 8) loved it and I don't think I'll ever hear my husband stop talking about how fantastic the experience was."
