be refreshed

It might seem like an odd idea - going south to cool off.

But Bisbee, Arizona is a mile high in the scenic Mule Mountains - and it's way cooler down here. We're generally 10-20 degrees cooler than Arizona's urban centers. Just a scenic drive away from Tucson and Phoenix, Bisbee offers the best year-round climate you'll find anywhere - as well as a surprising selection of refreshment options and great food - so nobody leaves unsatisfied.

be inspired

Bisbee's creative spirit is legendary. Here you'll find a forward-looking town with a remarkably well-preserved past. Bisbee is a town full of extraordinary historic architecture, as well as home to a vital, living, breathing art and music scene, all in a setting of rugged natural beauty. Bisbee's galleries and performance venues open a window into the town's rich culture of creativity - in surroundings that may just get your own creativity flowing, too.
