

RIDE THE SKY

SOAR
1,000 FEET
ABOVE THE CANYON FLOOR
REACHING SPEEDS UP TO
40 MPH

The all **NEW Zip Line** at **Grand Canyon West** consists of two "quad Zip Lines," each configured with four steel cables running side-by-side in parallel formation, to allow groups to **soar together** – at speeds approaching **40 mph!**

The first of the two lines measures about 1,100 feet in length, and passes about 1,000 feet above the canyon floor. The second line, set at a steeper grade, propels guests on the 2,100-foot-long downhill adventure of a lifetime, complete with views of nearby Quartermaster Canyon and rushing scenery above and below. —> **Experience the FIRST and ONLY Zip Line at the Grand Canyon!**
