Healthcare is changing... *So Are We.*

Tempe St. Luke's Hospital is committed to being the hospital of choice for the Tempe community. Through this commitment, we have started a revitalization plan for our hospital to meet all of Tempe's healthcare needs. We are focused on the modernization and renovations of all inpatient units, delivery rooms, surgery suites, and the development of a new emergency department.

We are proud of our 70 year history of providing quality healthcare for the Tempe community. We look forward to continuing to care for you and your family.
