Goldfield Ghost Town, this once bustling mining town, is just minutes outside of Phoenix, Arizona. It's a unique new home to our daring, dynamic, and one of a kind Zipline.

The Superstition Mountains has a new experience to add to the mystery, history, and wild abandonment, that legend holds those daring enough to ride. Descend from above the desert and amongst these mountain tops changed forever. Perched 115 feet in the air this non-extreme, partner-paired zipline, hoists and sends you soaring across the Superstition mountain range at over 30 miles per hour. This family friendly attraction will have you darting through the desert sky while taking in a birds-eye view of all the surroundings.

Night rides available Friday & Saturday! For any occasion, whether it be a family vacation, anniversary, birthday, or corporate event. Let us take you on a breathtaking journey the Superstition Zipline!
