## DR. ZYLCHOV'S LABORATORY

Enter the lab of Dr. Zylchov, a scientist in 1970s Eastern Europe. You have stumbled upon a room in an abandoned building, and the door has locked behind you. The escape room is full of clues, codes and puzzles hidden in a Cold War era lab. Dr. Zylchov is up to something in here, and the consequences may be disastrous! Work quickly; the doctor seems to be fond of radiation! (2-6 players)

A luxurious tropical vacation deep in the heart of the jungle. What could go wrong? You and your friends have been kidnapped overseas and are being held for ransom! You see the scattered luggage and passports of past victims and feel entirely hopeless. But if you can outwit your captors, and soon, you may just have a chance at survival! (2-6 players)
