HELTHER SKELTER

Charles Manson

Sharon Tate

SATURDAYS

From the film makers behind the documentary "THE SIX DEGREES OF HELTER SKELTER." Get your mind inside the madness of 1969.

The Tate/LaBianca murders have scared the living hell out of almost everyone

at some point in time. This multi-media tour retraces the victim's lives and last moments, as well as the background on the Manson Family, and the reason this insane episode of American history took place.

- See BOTH crime locations
- You will hear graphic details of the murders told by the killers themselves.
- The scene of the victim's Last Supper
- The driveway where the killers washed off and the hillside where the bloody clothes were found
- You will get insight into the 60's Sunset Strip and L.A. Music Scene

Included in the price of the tour is a donation to the Justice For Victims of Homicide

"Nothing Helter Skelter about it! It cuts to the facts and gives you nightmares!" -Rex Reed
