

Driving Academy 
HOUSTON TX, USA

THE WORLD FAMOUS DRIVING ACADEMY IS HERE!

In front of you, the track is free. Behind, the engine roars. The Lotus Driving Academy links Lotus' adrenaline-fuelled track experiences and its hugely successful driver training to develop an unrivalled program of events that creates better drivers focusing on driving technique and consistency, not only speed. Track experiences and courses within the Lotus Driving Academy are designed to give drivers both practical training and a theoretical appreciation of driving, enabling them to learn at a steady and affordable pace.

***Elevate driver safety,
skill and enjoyment
through a
progressive, tiered
program on our exclusive
racetrack in Houston.***

Lotus Driving Experience

From
\$399*

Experience why people are raving about our super lightweight Lotus Exige 360 Cup. Renowned for their brake-neck cornering ability, driving a Lotus you will feel what it's like being close to the ground with the lightness in your hand and plenty of power. This iconic British sports car has a racing heritage in its DNA. The Lotus Exige 360 Cup has been engineered using cutting-edge racing design. Enjoy near perfect weight distribution and suspension handling characteristics that reward fast driving. The Lotus lives for the race track! Book a Lotus driving experience now!

Lotus Driving Academy

From
\$795*

The Lotus Driving Academy offers enthusiasts a unique opportunity to learn how to be a better daily driver. Any car enthusiast will revel in the chance to learn new skills in the most advanced Lotus on our MSR race track. We've very much kept the philosophy of the Academy with professional coaching and intensive training. The academy gives drivers advanced-skills exercises to perfect: heel and toe, power oversteer and navigate the extended cone slalom.

Customers will go away having learned much more about their driving, but also a good understanding of vehicle dynamics. That's what makes us different from other experiences: you really are coming to the home of vehicle dynamics to learn from the masters.
