

## **SAFETY IS OUR #1 CORE VALUE**

Our goal is to be the SAFEST place to be and to make great memories.

## **FACE MASKS REQUIRED**

For everyone's safety, our team members and guests are required to wear a face mask covering both their mouth and nose. If guests do not have one, we will give a mask for free.

## **TEAM MEMBERS**

Before every shift, each of our team members must certify that they have no COVID-19 symptoms and have not been around anyone that has symptoms. Their temperature is also checked.

## **SOCIAL DISTANCING**

Social distancing between people that are not part of the same household or "social bubble".

## **HAND SANITIZER**

Hand Sanitizer stations are available at the entry and throughout the facility.

## **CLEAN FACILITY**

Continuously sanitizing our lobby, restrooms, spectator area, restaurant areas, arcade games and axe arenas.

## **TOUCHLESS REGISTRATION & ONLINE RESERVATIONS**

Touchless registration will be available for first time customers. With your phone, scan the QR code from our sign and fill out the form. Online reservations are also now available.

## **AXE THROWING**

Axes are sanitized between every session. Each participant will have their own axe to use for the entire session.

## **HELMETS & KARTS**

Helmets are sanitized between each use and Race Masks (helmet liners) are used by all racers. We also sanitize areas of the karts that are touched between every use: steering wheel, seat belt clasps and kart switches.
