Almond, Cashew

Cleveland is rooted in diverse and multi-ethnic cultures and tradition. At the heart of this is the West Side Market. It has been a large part of Cleveland history and its family's traditions for over 100 years.

Rita's has been family owned and operated for 45 years. Rita being of German descent started her market career in 1955, working at Angie's Bakery. In 1965 she purchased stand G-10 from "Ma Grady". For more than 20 years, she delighted many children with her bright smile and her tasty pickles. In 1988 her grandson took over the business when Rita was ready to retire.

As a child we shopped at the market weekly. I could hardly wait for all the goodies. The family time was priceless. I continued this with my children making our own market tradition. When I purchased Rita's in November 2007 I knew immediately that my family had become part of a living history. In keeping Rita's "family" tradition, my daughters and I look forward to serving your family for years to come.

*Thank you!*  
*Renee*
