It's Time to Play!

Clip Clop: the unmistakable sound of a horse-drawn carriage pulled down a country road. It's a sound that harkens back to a simpler time, a time when children's toys were powered not by batteries, but by the boundless energy of imagination. And while the going may be a little slower, oh, the things you'll see along the way!

Our toys and play furniture are handcrafted in the heart of Lancaster County, Pennsylvania, where you can still hear this sound every day. Each piece is built to last, so it can be handed down for generations to come.

Finding Product Images & Authorized Retailer Resources

We've created a custom, easily-accessible website link for Authorized Retailers to access and download our product images.

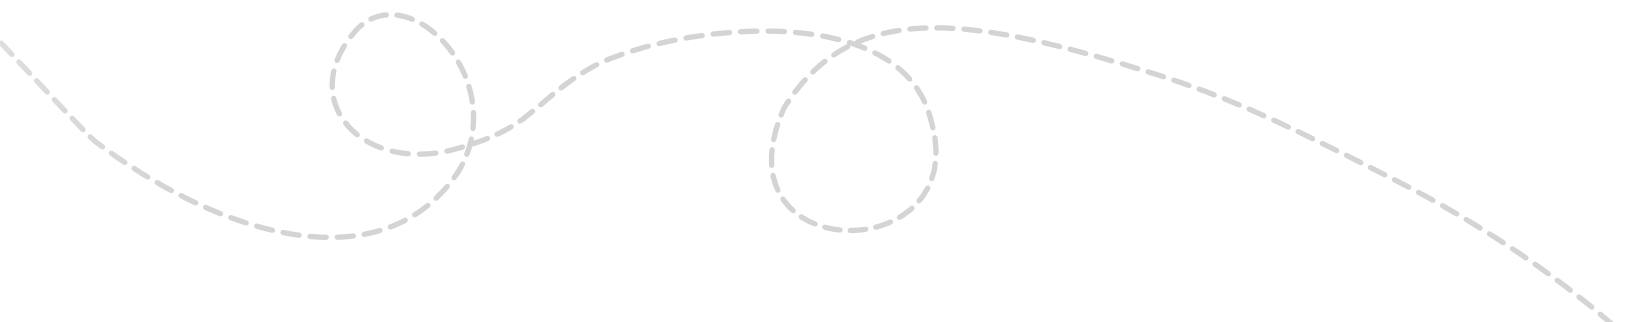

1. Go to this URL in your web browser:
images.lappstoysandfurniture.com
2. A secure login window will pop up where you'll enter your given username and password
U: **AuthRetailer** *(Make sure that the L and T in Lapps Toys are capitalized.)*
P: **LappsToys17601**
3. You'll be redirected to Dropbox.com where all of our current Product Images (listed by SKU number), our Price Sheet (that includes specifications of each product), and a copy of our Product Catalog can be found.
4. Once you open the Product Images folder, you can view images by picture view  or by list view . We recommend list view.
5. There are a few ways you can download our product images. Click on the Download button in the top-right corner and
 - Select "Download as .zip" - Save File to your computer and open the folder when it is finished downloading. From here you can choose which product images you'd like to keep by putting them in another folder and deleting this one when you're finished.
 - Select "Save to my Dropbox" - If you already have a Dropbox account or would like to create a free one, you may select this option, after which you will be able to select and download only the images you want.
 - You can also open each product listed and download them individually, one at a time, to a folder on your desktop.

Did you know...

American hardwoods use far less energy in manufacturing than any other material. ¹

The life cycle impact of hardwood products is the lowest of any building material. ²

All hardwood trees in American forests are naturally regenerating (no hybrids, no replanting), and over 100 species proliferate. ³

Photosynthesis activity of young trees is almost double that of mature/old trees. ⁴
