## Take A Hike

Henry David Thoreau called Wachusett Mountain "the observatory of Massachusetts" and when you experience the 360-degree views from the summit, it's easy to see why. From the ski area or nearby Wachusett Mountain State Reservation, a variety of hiking trails are available for all levels of hikers. Hiking maps are available in the base lodge or visitor's center located approximately 1 mile past the ski area up Mountain Road on the right. The visitor's center number is 978-464-2987.
