

## Welcome to Mounts Botanical Garden!

With a mission to “inspire and educate through nature,” and a history spanning more than 40 years, Mounts Botanical is Palm Beach County’s oldest and largest public garden. From its beginnings as a horse pasture, Mounts evolved into a Horticultural Learning Center and became a public garden in 1978. Located just west of Palm Beach International Airport, the 14-acre Garden is a hidden gem.

Discover 25 unique garden areas with more than 2,000 species of tropical and sub-tropical plants and trees: from Florida natives, to exotics, herbs, palms, cactus, bromeliads, tropical fruit trees, and much more! The Mounts Botanical vegetable garden demonstrates what can be grown here in South Florida, year round.

Venture into *Cutting Corners*, our massive, Stickwork masterpiece, where you can become part of living art! Created in January 2019, this extraordinary sculpture was built, on site, by renowned artist/sculptor, Patrick Dougherty with the help of 100 local volunteers. The five interlocking structures are made entirely of willow.

Explore the award-winning *Windows on the Floating World: Blume Tropical Wetland*, and relax on our shade island, overlooking Lake Orth, where you'll find koi and turtles in abundance.
