BEAUTY OF THE ISLANDS 1 HOUR CRUISE

(Gananoque departure)

Highlighting the natural habitat and local living of our region.

Join us on a 1-hour cruise taking you closer to the islands than any other cruise available in the 1000 Islands. See fifth and sixth generation family cottages. Cruise the narrow channels of the Admiralty and Navy group of islands. View lighthouses and breathtaking views.

Watch for the ferry crossing, look for a great blue heron, osprey, geese or the Least Bittern, a wading bird whose wetland habitats are decreasing elsewhere within its northern range.

La Croisière, Beauté Des Îles

(Croisière de Gananoque d'une durée d'une heure)

Cette croisière met en valeur la faune et l'habitat naturel présents dans notre région. Les Mille-Îles sont les vestiges des sommets d'une ancienne chaîne de montagnes, sculptés par les avances glaciaires successives, puis inondés par la crue des eaux des Grands Lacs, ce qui a créé une écorégion hautement diversifiée. Admirez un nid de balbuzard pêcheur et observez la couleuvre nord-américaine, un échassier dont les habitats humides disparaissent progressivement dans les régions nordiques.

History of Boldt Castle

In the early 1900's, George C. Boldt, millionaire proprietor of the world famous Waldorf Astoria Hotel in New York City, set out to build a full size Rhineland Castle on a picturesque Heart Island.

Boldt's family shared four glorious summers on the island in the Alster Tower while 300 workers fashioned the six story, 120 room castle, complete with tunnels, a powerhouse, Italian gardens, a draw-bridge, and a dovecote. Not a single detail or expense was spared.

The grandiose structure was to be a display of his love for his wife, Louise. In 1904, tragedy struck. Boldt telegraphed the island and commanded the workers to immediately "stop all construction." Louise had died suddenly. Boldt never returned to the island, leaving behind the structure as a monument of his love.

For 73 years, the castle and various stone structures were left to the mercy of the wind, rain, ice, snow and vandals.

Since 1977, when the 1000 Islands Bridge Authority acquired the property, several million dollars have been applied to rehabilitating, restoring and improving the magnificent Heart Island structures.
