HOLLYWOOD EAST

Lights, Camera, Action!

Oheka Castle was the location of many films as well as Taylor Swift's "Blank Space" music video

Sometimes called Hollywood East, Long Island's connection to film history dates to silent cinema when opulent parties and renowned mansions attracted international stars such as Charlie Chaplin. If you haven't visited our mansions or romantic beaches in person, you've probably seen them on the big screen! From Martin Scorsese's cinematic classics to Adam Sandler's laugh fests Long Island has served as the backdrop for hundreds of celebrated films and TV shows. Here are locations where you can recapture Hollywood magic on your next visit to New York City's Beachfront Backyard.

Citizen Kane (1941), Orson Welles' debut feature considered by many critics to be the greatest American movie, was partly shot in Huntington at the famed Oheka Castle (tours available daily). Oheka also was a location for Tina Fey and Amy Poehler's 2015 comedy, Sisters, and Taylor Swift's Blank Space music video. Oheka guests can visit a room dedicated to Charlie Chaplin's attendance at many glittering affairs.

Memorable moments in The Godfather (1972) were shot on Long Island, including the infamous "offer he can't refuse" horses' head scene in a bedroom at the Falaise Mansion at Sands Point Preserve on Long Island's Gold Coast. Falaise is open to the public, so guests can step back into movie-making history on tours available weekly.

More recently, in 2013 Hollywood leading man Leonardo DiCaprio played the title role in a film adaptation of The Great Gatsby (which was also set on Long Island's Gold Coast). Filming took place at mansions and various other North Shore locations. DiCaprio returned to the Island that year for the popular The Wolf of Wall Street, filming at Sands Point Preserve, at the Crescent Beach Club in Bayville and Mill Hill Farm, a horse farm in Wainscott.

Webb Institute in Glen Cove stood in for Wayne Manor in Tim Burton's Batman Forever (1995). A Perfect Murder (1998) and Sex and the City 2 (2010) filmed at Salutations Mansion, also in Glen Cove.

Legendary director Martin Scorsese has been shooting classics here for decades. The vacation scene in Goodfellas (!990) was shot in Atlantic Beach. Scorsese returned to film The Irishman, another mobster flick, with longtime collaborator and Montauk resident Robert De Niro, at The Roadway Inn in Huntington Station. De Niro filmed 2016's The Comedian at Governor's Comedy Club in Levittown.

Long Island's lighthouses tower over 1997's Men in Black (Fire Island Lighthouse) and What Happens in Vegas (2008) starring Ashton Kutcher and Cameron Diaz.

Mega star Will Smith and Long Island local Kevin James filmed the comedy hit, Hitch (2005), at Old Westbury Gardens. Other notable films shot at the famed estate include Denzel Washington's American Gangster, The Devil's Advocate and Cruel Intentions.

De Niro and Ben Stiller shot on location throughout the town of Oyster Bay for the blockbuster Meet The Parents (2000) and Jim Carrey filmed throughout the island—most memorably on a Montauk beach—in the award-winning Eternal Sunshine of the Spotless Mind (2004).

Not only are The Hamptons home to Hollywood stars in real life, they also serve as movie locations, for Woody Allen's revered Annie Hall, Jack Nicholson and Diane Keaton's Something's Gotta Give and Adam Sandler's Netflix comedy, The Week Of.

Long Island is home to two state-of-the-art movie studios in Bethpage. Both Grumman and Gold Coast Studios have housed dozens of A-List stars and blockbuster hits including The Avengers, Men in Black 3, Salt, John Wick, The Week Of, Oceans 8, The Amazing Spider-Man 2, Sisters, The Bourne Legacy and more!

A Gatsbyesque Glimpse of Long Island's **FAMED GOLD COAST**

Travel Back to a Bygone Era on Long Island's Gold Coast, home to grand estates once frequented by society's Who's Who, and now open to visitors who can relive glamorous times immortalized by the classic novel, *The Great Gatsby*. These opulent mansions with lavish interiors are currently offering tours and events:

OHEKA CASTLE

Towering majestically over one of Long Island's highest points, Oheka captures the elegant refinement of a chateau in France, with world-class service and a rich, distinctly American history.

Financier and philanthropist, Otto Hermann Kahn built OHEKA castle a century ago, as the second largest privately owned home ever constructed in America. (OHEKA is a blend of the initial letters in Kahn's name). Kahn used the 109,000-square-foot estate to host lavish parties for royalty, heads of state and stars.

Following a \$30-million restoration, Oheka is an internationally prestigious wedding venue and a frequent backdrop for music, television and film productions.

OLD WESTBURY GARDENS

Magnificent Old Westbury Gardens features a lavish English-style house and 200 acres of formal gardens. The landscape changes by the week and seasons. Old Westbury transports you to a different era while you explore its formal gardens, landscaped grounds, woodlands, ponds and lakes.

Completed by an English designer in 1906, Old Westbury Gardens was the home of U.S. steel heir John S. Phipps, Margarita Grace Phipps, whose family started the Grace Shipping line, and their children. The mansion is an homage to Margarita's old family estate in Battle Abbey. Old Westbury Gardens' beautiful architectural and floral garden design can be seen on guided tours.

SANDS POINT PRESERVE

Sands Point Preserve is located on the original Guggenheim estate in Sands Point – the community that inspired the fictional "East Egg" in *The Great Gatsby*. Sands Point's name derives from a historic family lineage traced to Robert de Sandys, born in Rottenby Castle in England in 1379.

It's home to four mansions: Hempstead House, Castle Gould, Falaise and Mille Fleurs. Hempstead House illustrates the extraordinary lifestyle of the 1920s and '30s, when grand parties drew world-class artists and gatherings of the powerful elite. Castle Gould, modeled after Ireland's Kilkenny Castle, was the first of the mansions built on the estate. Falaise harks back to the Medieval and Renaissance periods. It is furnished with antiques, many from the 16th and 17th centuries. The 216-acre park and preserve are open to explore a time rich in culture and distinctive architecture.

EAGLE'S NEST ESTATE

William K. Vanderbilt II was heir to one of America's greatest fortunes. He traveled the world collecting marine and cultural artifacts for the museum and mansion he built in the early 1900s. His Eagle's Nest mansion is the centerpiece of the 43-acre Vanderbilt Museum Complex on the waterfront in Centerport.

Eagle's Nest was built by renowned architects Warren & Wetmore, designers of New York City's Grand Central Station. Filled with priceless art and furnishings, the stunning 24-room Spanish-Revival style mansion offers an intimate look at the life of a privileged family from the Jazz Age through WWII. Listed on the National Register of Historic Places, Eagle's Nest is a time capsule with decor and artwork preserved as the Vanderbilt family left it, a present day "living museum" for visitors looking to travel back in time.

Additional preserved estates on Long Island's Gold Coast include the Mansion at Glen Cove, the Childs Frick Estate (Nassau County Museum of Art in Roslyn Harbor), Mill Neck Manor, and Coe Hall at Planting Fields Arboretum State Historic Park in Oyster Bay.

SUN, SAND AND SURF

Long Island is known for its famed coastline featuring miles of pristine beaches and scenic parks. Whether activities such as swimming, fishing, hiking high wooded bluffs or biking oceanfront paths pique your interest, or if you're looking for a place to simply soak up some sun, Long Island's shoreline is easily accessible and adventure-packed. The North Shore's high, scenic bluffs brood over the Long Island Sound and boast rocky beaches and calmer waters while the South Shore meets the Atlantic Ocean with miles of smooth white sand and waves that attract surfers from around the globe.

The North Shore's **Sunken Meadow State Park** in Kings Park draws family crowds to a boardwalk, food concession and beach on calm Long Island Sound waters. It offers wooded barbecue areas and scenic bluff-top hiking. The North Fork's **Orient Beach State Park** features a rare maritime forest and a beach on Gardiner's Bay. Four lighthouses can be seen from the park where you can also get your Lighthouse Passport Stamped. A ferry ride away from Greenport or Sag Harbor takes you to lovely **Crescent Beach** (and known as **Sunset Beach**) on Shelter Island.

Located on the South Shore, **Jones Beach State Park** in Wantagh offers 6.5 miles of white sand beaches and plays host to nearly 6 million visitors each year. Swim and sunbathe by the crashing Atlantic surf or take a dip in Zach's Bay. Walk, run, roller blade or bike on the two-mile boardwalk or stay late to fish from the pier and take in an evening concert at the 15,000-seat **Northwell Health at Jones Beach Theater**. Only a few miles away is Long Beach, home to a famous 2.2-mile boardwalk and Atlantic Ocean beach. With easy LIRR

Montauk Point Lighthouse

access year-round, **Long Beach** attracts sunbathers, volleyball players, joggers, kayakers and surfers.

Celebrity-studded **Main Beach** in East Hampton and **Coopers Beach** in Southampton have both been rated number one in the nation in different years by international beach expert Stephen P. Leatherman of Florida International University – a.k.a. "Dr. Beach." Be aware both are considered "local" beaches and require a parking fee, but you can bike there or take a hotel shuttle. Each year, surfers flock to **Montauk Point State Park** and legendary **Ditch Plains** where waves reach record

heights for the eastern seaboard.

Wildwood State Park in Wading River on the North Shore features high bluffs overlooking a calm Long Island Sound beach, and **Robert Moses State Park** on the South Shore boasts nearly five miles of beachfront and crashing Atlantic surf. **Fire Island**, designated a federal National Seashore, is a 32-mile-long barrier island located just across the Great South Bay from mainland Long Island. Its 17 small communities, which are mainly accessible from the mainland by passenger ferry and between communities by water taxis (no passenger cars are permitted), are known for their sparkling beaches and lively nightlife.

Long Island WINE COUNTRY

Rated by *Wine Enthusiast* as one of the Top 10 Wine Regions in the world, Long Island Wine Country offers more than 60 vineyards for visitors to experience. From crisp white varietals to versatile rosés, for more than 45 years Long Island has grown award-winning, high quality wines.

VINEYARD SPOTLIGHTS:

Bedell: Bedell Cellars is a pioneering, family-owned winery on the North Fork of Long Island Wine Country. For more than 35 years, Bedell Cellars has been committed to hand-crafting wines in small batches using methods that come to define the style of wine found in the East End: honest wine that is reflective of place. Artistically blending grapes grown in Long Island's maritime terrior produces wines that have received critical acclaim, such as being served at the 2013 U.S. Presidential Inauguration Luncheon.

Sparkling Pointe: Sparkling Pointe encompasses 40 acres of vineyards planted only with the classic Champagne grape varietals — Pinot Noir, Pinot Meunier and Chardonnay. Using strictly the traditional Méthode Champenoise process, Sparkling Pointe is the only winery on the North Fork dedicated exclusively to producing sparkling wines.

The Sparkling Pointe tasting experience is a showcase of prestige, artistry and finesse combined with festiveness and just the right amount of savoir-faire. Earning coveted 90+ point scores from *Wine Enthusiast* and *Wine Spectator*, Sparkling Pointe wines are consistently acknowledged as some of the best in the region.

Kontokosta: The wines of Kontokosta Winery are a fluid reflection of the last leg of a long journey rooted in agrarian excellence, intellectual curiosity and personal growth. On a 62-acre waterfront

farm in Greenport, Kontokosta Winery is a sustainable, wind-powered operation that is producing wine that is as honest as it is inviting. Perched atop sweeping bluffs overlooking the coastline, Kontokosta invites guests to sit, sip and enjoy amid the very maritime climate in which the wines were created.

Pellegrini Vineyards: One of the original pioneers in the Long Island wine community, Pellegrini vineyards has been producing an award-winning range of wines since the early 1980s. Located in Cutchogue, the picturesque vineyard features a 14,000 square-foot winery complex that was one of the first to integrate a thorough winemaking process in the region. The state-of-the-art facility combines the best of modern winemaking technology, while honoring the family's passion for old world design.

THERE'S A LOT BREWING

On Long Island

Port Jeff Brewing Company

Long Island wine isn't the only beverage that's produced locally, and enjoyed globally. In addition to more than 60 vineyards and wineries, the region's craft beverage trail is booming with breweries, distilleries and cider houses also open to thirsty travelers from near and far.

GOING GLOBAL

Since 1998, **Blue Point Brewing Company** in Patchogue has been setting the standard for beer in New York. In 2014 the local company was acquired by Anheuser-Busch, with plans to expand Blue Point's operations in Patchogue turning this local favorite into a global phenomenon. Seasonal favorites, Pumpkin

Ale and Oktoberfest, are must-tries as the leaves begin to turn.

CALLING ALL FOODIES

Greenport Harbor Brewing Co. has two brewing locations to choose from – its original on Carpenter Street in Greenport and a new bottling plant/tasting room in Peconic. The Peconic location also features a new restaurant with "bites" including duck spring rolls, the "naked" lobster roll and fish & chips battered with the brewery's Tidal Lager. The seasonal favorite for pairing: Leaf Pile Ale.

CIDER IS THE NEW CRAFT BEVERAGE

At the western reaches of Long Island Wine Region, **The Riverhead Cider House** offers a wide variety of naturally harvested apple ciders, local beers and wines, alongside fresh local produce and bites supporting Long Island's "Farm to Fork

Revolution." Cider Master Greg Gove is producing ciders with New York-grown apples in three signature flavors: Benjamin's Best, Razmatazz and Reserve. The crisp beverages are served in an 8,000-square-foot tasting room with two floor-to-ceiling fireplaces, rustic décor and dueling, self-playing pianos.

TRENDING: FRESH HOPS

Since 2011, **Port Jeff Brewing Company** has been serving craft brews in the waterfront village of Port Jefferson. The nautical-themed small-batch brewery releases a special Fresh Hop Ale in the fall, a unique recipe that uses fresh instead of dried hops. The beer is designed with a minimal of specialty malts so the drinker can truly taste the hops. Open daily, the tasting room is kid and dog friendly. Tours are offered on Saturdays at 4 p.m. for interested brewmasters in training.

From Gatsby-style gardens to fields of lavender, Long Island offers an abundance of lush destinations for nature lovers to enjoy. Stroll through one of our many arboretums or picnic on elegant grounds for a moment of serenity this year.

Old Westbury Gardens: Considered one of the most beautiful English-style country estate gardens in North America, Old Westbury Gardens presents breathtaking vistas that change with the seasons. There are park-like grounds, groves of mature trees, sweeping lawns, formal gardens, ponds and lakes on the estate the Phipps family called home for many years. They are now open, seasonally, for visitors to enjoy. Notable sections of the estate include the Boxwood Garden, the Walled Garden, the formal Rose Garden and the Cottage Garden.

Lavender by the Bay: Located on Long Island's North Fork, this is New York's premier lavender farm boasting 17 acres of the highest quality aromatic evergreen. Family run for over 15 years, the farm features 20 varieties of English and French lavender yielding over 80,000 plants for cultivation. Seasonal offerings include freshly cut bunches, lavender plants and lavender honey made on-property at the farm's apiary. Check their website and social channels for updates on bloom times.

Planting Fields Arboretum: This former Gold Coast Tudor-style estate of the W.R. Coe family boasts over 400 acres of rolling lawns, gardens, woodlands and nature walks. The Camellia Greenhouse displays the largest collection of camellias in the northeast, and the Main Greenhouse has extensive collections of hibiscus, orchids, succulents and seasonal displays. Open to the public year-round, guided group and individual tours are available by request.

Sands Point Preserve: A century-old bridge greets guests as they enter Sands Point Preserve, a non-profit organization tasked with the preservation of Castle Gould,

Hempstead House, Falaise and the surrounding gardens and grounds. Featuring mature trees and landscaped gardens, the estate is also home to a majestic rose garden with more than 1,500 red rose bushes. Six marked hiking trails weave through more than 200 acres of natural and landscaped areas with vistas that include freshwater ponds and the estate's seaside bluff.

LongHouse Reserve: This East Hampton reserve and sculpture garden offers a creative approach to contemporary life. Founded by Jack Lenor Larson in 1975, the estate encompasses nearly 16 acres of East Hampton Township's great Northwest Woods. The gardens at LongHouse serve as a living case study of the interaction between plants and people in the 21st century. Art-focused landscapes demonstrate the planting potential in this climate featuring a wide variety of natural and cultivated species.

Additional gardens open to the public include: Bailey Arboretum, Clark Botanic Garden, Hofstra Grounds and Arboretum, LIU Post Community Arboretum, Bayard Cutting Arboretum, Bridge Gardens, Madoo Conservancy.

Windmills across Long Island are wondrous, charming focal points of their communities, and a teaching moment for kids to learn about the possibilities of wind power.

LIGHTHOUSES

Fire Island Lighthouse: Since the original tower was built in 1826, the Fire Island Light was the first sight of land upon arrival to America for many European immigrants. Learn the history of the lighthouse during the 182-step tower tour to 168 feet above sea level with 360-degree views of the ocean, Fire Island and the bays of Long Island. (On a clear day you can see the NYC skyline.) Take a walk from neighboring Robert Moses State Park leading up to the lighthouse to explore nature trails of the barrier island. Experience the Keeper's Quarters interactive exhibits and view the First Order Fresnel Lens that was active from 1858, when the second lighthouse was constructed, to 1933.

Montauk Point Lighthouse: The oldest lighthouse in New York State and the fourth oldest lighthouse in the United States, the Montauk Point Light was authorized by the Second Congress under President George Washington in 1792. Climb the top for 360-degree views extending out to Block Island and the Atlantic Ocean. The light flashes every five seconds and can be seen from a distance of 19 nautical miles.

Long Beach Bar "Bug" Lighthouse: A historic and welcoming symbol of Long Island's maritime culture, The Bug Light helped mariners navigate around the sandbar between Orient Harbor and Gardiner's Bay and also welcomed travelers to Peconic Bay. Take a cruise out to the Victorian structure of the lighthouse for a picturesque moment on the water.

Lighthouses of Southold: Sailors, fishermen, ferries and boating enthusiasts still use the Southold lighthouses as landmarks and navigation aids. Besides Bug Light the active lighthouses include Plum Island, Orient Point, Latimer Reef, Little Gull, Race Rock, Horton Point and North Dumpling.

Mystery, Intrigue and **AMERICA'S FIRST SPY RING**

Did you know that the hit AMC series *TURN* was based on actual events that took place on Long Island during the late 1700s? General George Washington personally credited the Long Island spy ring with helping win the American Revolution. After the Redcoats captured Long Island early in the war, the Culper Spy Ring risked its lives working undercover in close proximity to British military headquarters in New York. Historic sites on Long Island's North Shore take you back to the days of 1778 when Long Island was a hotbed of intrigue under British military occupation.

CENTER OF SPY ACTIVITY

Take a Tri-Spy Tour that includes walking, biking and kayaking or a Discovery cruise of the Stony Brook/Setauket area. This part of the Long Island Heritage Trail was the center of spy activity during the Revolution. The spies here supplied General George Washington with the information needed to prevent the British from capturing Newport, Rhode Island. Whaleboat man Caleb Brewster carried messages across Long Island Sound where Benjamin Tallmadge, leader of the ring, waited to deliver them to Washington's headquarters. Visit the Brewster House in East Setauket, the tavern where Joseph Brewster entertained (and spied on) British troops. See where the British had a garrison quartered during the Battle of Setauket, which was fought near Setauket Presbyterian Church, then stop in at the Thompson House to see some of the spies' names written in a doctor's ledger. Have lunch at Mirabelle Tavern at the Three Village Inn, rumored to be haunted by a young girl accused of treason during the war.

BRITISH OCCUPATION AND SECRET SPIES

Discover the fascinating tale of one of America's most important secret spies, Robert Townsend (Culper Jr.) at the Townsend family home, which nowadays houses Raynham Hall Museum in Oyster Bay. Lunch in Huntington Village and hike and fish nearby at Target Rock National Wildlife Refuge, which gets its name from a large rock there that the Redcoats used for target practice.

EXECUTION ROCKS

Take a boat excursion to Execution Rocks light station, a legendary place located in the Long Island Sound off Sands Point. This remote island got its name because British colonial authorities are said to have executed rebels by chaining them to the rocks at low tide, allowing the rising water to drown them. (As added torture, the bones of those previously executed were left for the new captives to contemplate.) From April to November a one-hour tour by Port Washington Water Taxi leaves from the town dock on Main Street. Return to dine at a waterfront restaurant and enjoy artisan shopping in the busy village.

AMERICAN RESISTANCE

Visit the Huntington Militia Arsenal to see what life was like for the common soldier and his family during the Revolutionary War. Also nearby in Huntington is the 1750 David Conklin Farmhouse, which survived the advance of the British who overtook the town during the American Revolution. See where Sybil Conklin lived with her children while her husband, David, was held prisoner by the British. Then explore history at the Huntington Historical Society's Soldiers and Sailors Memorial Building on Main Street.

GEORGE WASHINGTON SLEPT HERE

Visit Sagtikos Manor in West Bay Shore. British soldiers and top ranking officers stayed at the manor during the Revolution. After the war, President George Washington toured the area to thank the loyal Patriots, and according to his personal journal, also spent the night at Sagtikos Manor.

EXPERIENCE HISTORY COME TO LIFE

Long Island celebrates its Revolutionary history at Culper Spy Day on Saturday, September 14. A number of organizations bring Washington's Spy Ring to life with activities such as battle reenactments, colonial cooking demonstrations, spy trail and historic site tours, craft fairs and more.
