A RETROSPECTIVE OF LEGACY IMAGES
from over 40 years of nature and wildlife photography
capturing the Earth's last great wild places.

RENOWNED AMERICAN NATURE PHOTOGRAPHER Thomas D. Mangelsen has traveled throughout the natural world for over 40 years observing and photographing the Earth's last great wild places. From polar bears in the Arctic to vast herds of game on the plains of Africa, from the deep jungles of South America to the tigers of India, to images revealing the diversity of wildlife in the American West, Mangelsen has captured rare moments and vast panoramas from all seven continents.

Every image in Mangelsen's portfolio has been taken in the wild under natural conditions; the result of him waiting for the "picture perfect moment" across decades and often in hostile conditions. Such a body of work can only be achieved by having a heightened sense of animal behavior, an uncanny feel for being able to read changing atmospherics in the environment, and patience. At a time when digital technology is, notoriously, reprogramming its users to have shorter attention spans, *A Life in the Wild* stands as a testament to the rewards that can come to people who slow down their lives and wait for nature's revelations to happen.

A Life in the Wild is an exhibition containing 40 of Mangelsen's most resonant images of landscape and wildlife on all seven continents—images that take viewers on a journey into the haunts of iconic species, whose struggles for survival are metaphorical fulcrums for reflection in the 21st century.

Thomas D. Mangelsen: A Life in the Wild is produced by Thomas D. Mangelsen, Inc. and David J. Wagner, L.L.C.
