

# What to Bring

Pack light. All you need to bring is a simple kit bag (10lbs max) swim wear, towel, change of clothes, sunscreen, camera or go-pro. Snorkel equipment is available on our tour boat, but feel free to bring your own. Bring some cash too, some island vendors don't take credit cards.

# The Tour

Your adventure begins at our private Fort Lauderdale Executive Airport lounge and hangar, early morning. A selection of snacks and hot/cold beverages are available. Beginning with a 60 minute flight to St. Andros, where our representative will clear you through customs, we then fly you low for a breath-taking view of the Exuma Cays, a chain of 360 tiny, white beached islands, to the beautiful Staniel Cay. (Total flight time 1:47 minutes).

At Staniel Cay, our guide will meet you at the air strip and transfer you to our boat where we will set sail for your day of unforgettable island fun. For the next four hours, we will take you to Iguana Island, where you can feed some of these amazing reptiles and to Compass Cay where you can swim with the nurse sharks. You can snorkel or dive at any of these magnificent

locations, in shallow crystal clear waters where coral and sea fans litter the ocean floor below.

Lunch at the historical Staniel Yacht Club. In the afternoon, our guide can take you into the famous Thunderball Grotto, an underwater cave that was featured in two James Bond movies and is full of a wide variety of fish

and coral. We will then move onto Pig Island, at Big Major Cay, an uninhabited Island where you can swim and take selfies with the famous and adorable swimming pigs. (Tour is in no particular order).

Later in the afternoon we will return you to the yacht club where you can wander the historic club (also featured in a Bond movie), have a drink at the bar or on the beach. We fly back out in the late afternoon and will have you back in Fort Lauderdale by approximately 7 pm, after an unforgettable day of island exploration!
