

Relive the Golden Age of Rail Transportation

Clang Clang Clang went the trolley

Hear the sound of the clicky clack of the rails, the gentle sway of the trolley while you enjoy the sweet aroma of Connecticut's pristine salt marsh.

It's a journey back in time you won't forget! At the carhouse exhibits you'll see trolleys over a century old. Expert operators and tour guides explain how trolleys work and take you back to a time when even small towns had mass transit at nickel fares. Ride all day on a single pass!

The Branford Electric Railway

is a National Historic District listed as the oldest continuously operated suburban trolley line in the United States. Service started July 31st 1900.

Your visit starts in our Exhibit Hall where there are hands-on displays, memorabilia, theater, trolley hardware and more.

Next take a three mile scenic round trip ride on a New Orleans, Atlanta, Pennsylvania or Connecticut Trolley Car.

At the car house exhibit stop see some of our approximately 100 vehicles that average over a 100 years old!
