ABOUT US

Extreme Flight Simulation is the first and only Chicagoland company that specializes in the field of flight simulation to open it's doors to the general public.

Have you ever dreamed of flying an airliner like the B737-800NG?

Extreme Flight Simulation is a Flight Simulation Center based around Entertainment and Recreation. We have a B737NG flight deck where the public can be the pilot and fly anywhere in the world choosing from 24,000 destinations world-wide in any weather conditions.

Our B737NG simulator is a 1:1 replica of the actual flight deck. Every display, switch and throttle quadrant is exactly what the real plane has. This type of device is what real pilots train in. With our 220 degree HD seamless screen, it will give you the sensation and feeling as if you were actually flying.

Our Instructors are all licensed pilots, ranging from Private Pilots, all the way up to current and retired Airline Captains.

Come by and have a look for yourself in person. You won't want to walk away without testing your skills!
