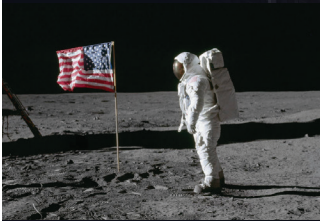

## EXHIBITIONS

Opening June 2020

### **APOLLO: WHEN WE WENT TO THE MOON**

Positioning the shuttle program within the larger context of the space race, this exhibition will explore the tumultuous Cold War era through the people, machines and world events that altered humanity's trajectory forever.

### **NAVY CAKES: A SLICE OF HISTORY**

This new exhibit draws upon the Museum's collections of recipes, photos, artifacts and oral histories to explore stories behind the elaborate confections baked—and enjoyed—by the crews of *Growler* and *Intrepid*.

### **KAMIKAZE: BEYOND THE FIRE**

An immersive multimedia experience reveals the history and impact of kamikazes. Through firsthand accounts and artifacts from the United States and Japan, learn about the young men on both sides of the devastating attacks.

### **A VIEW FROM THE DEEP: THE SUBMARINE GROWLER & THE COLD WAR**

Explore the history and design of USS *Growler* in the context of the Cold War. Historical artifacts, oral histories and immersive experiences offer a behind-the-scenes look at life on board.

### **ON THE LINE: INTREPID AND THE VIETNAM WAR**

*Intrepid* served three tours of duty in Vietnam from 1966–1969. This exhibition explores the events and impact of the Vietnam War through the lens of *Intrepid's* history.
