ABOUT US

Our Mission

The Kansas City Automotive Museum focuses on our region's automotive heritage in manufacturing, racing, collecting and marketing of automobiles and motorcycles. As our name implies, the Kansas City Automotive Museum is not just about cars, but all things automotive. With few exceptions, the Museum does not own the automobiles, motorcycles, and memorabilia it displays in its 10,000 sq ft facility. Rather, the Museum showcases collector vehicles and artifacts owned by local residents, historically significant vehicles on loan, and temporary traveling exhibits.

Our mission is to entertain and educate all generations through the preservation, promotion, and display of Kansas City's rich automotive heritage.
