SO MUCH TO SEE

Historic Vessels

Even the most confirmed landlubbers will be transformed into savvy sea dogs after boarding one of the historic vessels at Mystic Seaport Museum. From the world's sole surviving wooden whaleship, the *Charles W. Morgan*, to the last example of early 20th-century New England fishing schooners, the *L.A. Dunton*, these vessels offer a glimpse of long-past seafaring days.

Henry B. duPont Preservation Shipyard: A Working Shipyard

Witness the art of wooden shipbuilding, an awe-inspiring opportunity to watch skilled craftspeople perform skills made nearly extinct by steel and fiberglass.

Seafaring Village

Wind your way through a recreated seafaring village and explore some original New England buildings staffed with historians, musicians, storytellers, and craftspeople, who bring our seafaring heritage to life.

World Class Exhibitions

The Museum's exhibition buildings and spaces are brimming with permanent and changing exhibits that offer rare glimpses into other eras and cultures, including restored vessels, figureheads, ship carvings, and much more!

FAMILY FUN

Children's Museum

A hands-on space for children 7 and younger.

Discovery Barn

Explore the science behind a ship's movement in Force in Motion at Sea.

Home Port

An inviting room that harkens back to the Victorian Era, families are invited to spend time together with crafts and amusements intended for children ages 8-12.

Navigation Quest

Stop in the Nautical Instruments Shop for a free Nav Quest kit and find your way around the Museum using the navigational tools of a sailor.

Playscapes

Climb aboard our pint-sized fleet: a sailing ship, tug boat, and a fishing dragger.

GET OUT ON THE WATER

Visit the Boathouse and captain your own rowboat or sailboat. Let our captain sail you on the Mystic River aboard Breck Marshall, or take a ride on the newly restored 1908 steamboat Sabino.
